

15th July 2014

Dear Mr Bedi,

I was absolutely delighted to receive your recent donation of £10,000 to help improve our cancer services at Guy's and St Thomas'.

Thank you so much – from myself, all the doctors and nurses who work here, and of course – our patients. Because of the kindness and generosity of people like you, we will be able to transform the environment where all our cancer patients come to receive first-class care and treatment.

I know for young people like Jessica, your help to build a new Teenage and Young Adult Cancer Unit is of huge importance.

In a dedicated unit – one of just a few in the entire country – young patients like Jessica will be able to feel more at home and receive the specialist care they need. Many of them will stay for weeks, or even months, so it's vital to their recovery that they are comfortable and surrounded by people their own age.

As you know, this is just one part of our planned work to dramatically improve cancer services. For all our other cancer patients, our new Cancer Centre will provide the very best care and treatment under one roof.

Designed with considerable input from patients themselves, this unique Centre will provide radiotherapy, chemotherapy and clinical trials in a warm, welcoming and modern building. With the help of kind people like you, this fantastic new Centre is scheduled to open in 2016.

So thank you, once again, for your very kind donation. We couldn't achieve so much without you.

Together we can help more people live through cancer and beyond.

Yours sincerely,

Dr Majid Kazmi
Clinical Director of Cancer Services
